
The **N**ew **W**orld **O**rders

It's Real and Needs our Immediate Response

Introduction

Note: this article is the result of hundreds of hours of research, 65 years of living, and a strong resistance to any group or individual who tries to control how others think, feel, and act. Since I cannot be absolutely certain that all that I'm about to describe is **true**, especially an alien involvement, I can only hope that it proves **helpful** to you.

I believe there is a worldwide conspiracy to enslave the human race. This conspiracy is so **massive** and so **evil** that most rational people will refuse to accept that anyone could conceive of such a plan, let alone make it work! I can certainly understand any skepticism, especially when "aliens" are involved. Until recently, I laughed at the whole idea as well .. but I'm not laughing now!

I ask you to please suspend your judgment and simply read this article with an open mind. Then you can test its accuracy by doing some of **your own research**. I'll suggest some research themes in the last section.

The NWO conspiracy has made the world a very dangerous and scary place at the moment, but I believe there are **solutions** and there is **hope**! The solutions involve developing a **greater awareness** of what's really happening and then making better individual and collective **choices**. Awareness and choice are at the core of my work as a wholistic educator. The NWO conspiracy is an attempt to **decrease** our awareness and **limit** our choices; it's against everything I stand for!

There's much we can learn from this conspiracy. The following themes kept emerging as I researched and wrote this article. Contemplating their meaning may not only help us have a fuller understanding of the NWO conspiracy, but of our own lives as well as.

- **Things are not what they appear to be.**
- **Energies and relationships determine the quality of our lives.**
- **There is no "them" and "us", although some of "us" are not behaving very well at the moment.**
- **There's a time to remain silent and a time to act. Now is the time to act assertively from a quiet place.**
- **The universe strives for balance and harmony. Some of us seek power and control. Power and control are illusions that never create balance and harmony, only resistance.**

Section 1 What is the New World Order Conspiracy?

<> The NWO is a co-ordinated attempt to concentrate the world's economic, political, and military power in the hands of an **elite few** in order to control and enslave **all humans on Earth**. There are at least three groups involved in this conspiracy, each with their own agenda and methods. (see [Section 2.](#))

<> If this conspiracy is successful, the New World Order will create a world that looks something like this:

- There will be a **single world government** led by a fascist dictator and a shadow government
- All autonomous **nation states** and their borders, currencies, and distinct cultures **will disappear**
- There will be a **single world religion**, a **single world army**, and a **single world police force**
- The world's **population** will be violently **reduced** to a more "manageable" size of about **one billion or less**
- Family life will be discouraged and the **number of children** allowed per family unit will be **regulated**
- There will be **two social classes**; the **ruling elite** and the **"herds of human cattle"**
- There will be a **single financial system** based on **electronic debits** and **credits**
- All humans will be **micro-chipped** for identification, movement control, and financial record-keeping
- **Travel** will be restricted, **food** and **weather** will be controlled, **scientific information** will be falsified
- Any form of **independent thought** or anti-government **dissent** will be **violently repressed**
- There will be a constant presence of **street** and **in-home surveillance** for maximum societal control
- **Sports, television, and other social distractions** will continue to keep humanity **asleep** and **passive**
- To maintain humanity's **compliance**, engineered **"natural disasters"** and **"terrorist events"** will be followed by **"solutions"** that further increase our dependence and willingness to be controlled by the ruling elite

Note: much of this has already begun to take place as I write this article in April, 2012. MG

<> The conspiracy is **highly organized**. The three conspiratorial groups work together within a hierarchical structure modeled on a **multi-level pyramid**. The major decisions are made at the top levels, the day-to-day operations are carried out at the lower levels. The lower down you are on the pyramid the less you are informed about the NWO's overall agenda and how your actions are supporting it. The levels of the conspiracy pyramid consist of:

- (level 1) the **controllers** (the top of the pyramid, the real invisible power behind the conspiracy)
- (level 2) the **conspirators** (the elite, hybrid families, the conspiracy's secretive, human leaders)
- (level 3) the **wheeler-dealers** and their **secret societies** and **networks** (the NWO conspiracy's secret army)
- (level 4) the **upper level executives** in finance, politics, the military, etc. (the NWO collaborators)
- (level 5) the **intelligence services, military** and **police** (the NWO enforcers)
- (level 6) the billions of **ordinary men** and **women** (the sheep-like victims)

<> The NWO conspiracy is based on **deception, covert actions, social engineering** that creates **divisions** among the genders, races, and political movements, and **engineered events** that create **fear** and **uncertainty**, i.e. wars, "natural" disasters, and "terrorist" attacks. The conspirators have a **highly developed understanding** of human psychology, and a detailed knowledge of the operation of financial and political systems. What makes this conspiracy so dangerous is that its perpetrators are **not constrained** by conscience, compassion, human values, or any moral code. They will do literally **anything** to gain their objectives and they have absolutely no remorse for the pain and misery they inflict on their victims. Add to that the fact the conspirators have the patience to create and follow through on **very long-term plans** and you have an extremely dangerous threat to our collective freedoms and well-being.

> Part of the NWO conspiracy is to prevent us from knowing our **true spiritual nature** and encouraging us to remain locked within our own **fear-based prisons** of **limited consciousness**.

Section 2 Who are the Players in this Conspiracy?

> There are **eight distinct groups** of perpetrators, victims, and rescuers in the NWO conspiracy.

- 1.** the alien controllers (the bad aliens at the top of the pyramid)
- 2.** the hybrid human conspiratorial families (the cunning, clever ones with their "unique" half-alien genetics)
- 3.** humans in high positions of power (the wheeler-dealers) and their secret networks and societies
- 4.** the middle and upper level executives who don't run things but have considerable influence on what occurs
- 5.** the secret services, the militaries, and the various police forces (the conscious or unconscious enforcers)
- 6.** the passive (for now) majority of humanity; the unaware, imprisoned men, women, and children on Earth (the victims)
- 7.** the small but growing number of humans who have awakened and are now resisting this conspiracy
- 8.** the more benign alien groups working alongside the rescuers to save humanity from this peril.

1. The first group is the "**alien controllers**". It is believed that different aliens species have lived on (or under) the Earth for thousands of years. The culprits in the NWO conspiracy are thought to be a Reptilian species whose core values revolve around **conquest** and **subjugation** of other species. They are telepathic, technologically advanced, cunning and ruthless, consider humans to be an inferior species, and rely on **hybrid collaborators** to carry out their plans because of their incompatibility with the Earth's current physical and energetic environment (which they're trying to alter).

2. The second group consists of the "**genetically unique families**" i.e. the **conspirators** whose bloodlines can be traced back to the original offspring of Reptilians and human mating. These hybrid humans, often referred to as the **illuminati**, possess DNA that gives them major advantages over us when it comes to acquiring power, manipulating people and events, and controlling others i.e. Reptilian genetic traits. They now make up many of the world's aristocratic and royal families as well as the leading banking, financial, and political families. They have been careful to breed only among themselves in order to maintain their genetic advantages. Satanic rituals and symbols play an important role in their lives.

3. The third group is the high-level "**wheeler-dealers**", the CEO's of the transnational corporations, high-ranking politicians, military leaders, heads of banks, the media, i.e. the people who control key areas of our lives. They conspire with their fellow wheeler-dealers through **secretive networks** and **occult societies**, both controlled from higher up the pyramid. Although they are humans and not illuminati, they share similar characteristics, i.e. a desire for power and control, a lack of compassion for their victims, and more.

4. The fourth group is the **mid and upper level executives** who work under the wheeler-dealers. Many are also driven by **money** and **power**, but may not know (benefit of the doubt) the full NWO agenda. Consciously or not their work helps move the NWO agenda forward.

5. The fifth group are the **physical enforcers**: the various secret services, armed forces and police forces worldwide. Some members of these organizations **are** aware of the NWO agenda, others simply enjoy their positions of power without understanding the consequences of their repressive actions. Without the collusion of the secret services, police forces and the world's armies, the NWO cannot succeed. By design, all these enforcement organizations are hierarchies and are being controlled from the top by corrupt politicians and wheeler dealers.

6. The fifth group are the **unaware masses** of human beings who sleepwalk their way through life. Made numb, fearful and obedient by a repressive education, phony "natural" disasters and "terrorist" events, propaganda, false advertising, unhealthy food, etc., they are completely unaware of their true spiritual nature and how they are being manipulated.

7. The fifth group are the "**awakened ones**", those humans who have developed greater self awareness and are making better choices. They are aware that they have been lied to and manipulated and are now prepared to stop the NWO agenda through nonviolent resistance and non-compliance.

8. The sixth group are the "**alien rescuers**", i.e. alien species familiar with the Reptilian's agenda of conquest and control who are deeply concerned that this corner of the universe will become contaminated by nuclear radiation should the conspirators engineer WWII.

Section 3 Why are the NWO Perpetrators Doing This?

<> The three main groups involved in the NWO conspiracy each have their own distinct genetics, agendas, and methods. To better understand why each group is involved, we must look at them individually. They do however share some common characteristics that motivate their actions.

1. All three groups share a **desire for power** and the need to **subjugate** and **control** others. Imagine how attractive it must be to them to believe they have the means to control the inhabitants of an entire planet!
2. All three groups are completely **under the influence** of the dark, slow-vibrating life forces known as the "**Satanic**" or "**material**" energies. What we know of as Satanism is only **one** manifestation of these dark energies. Satanic energies destroy conscience, compassion, concern for the well-being of others, sexual restraint, and much more. All three groups are doing what they do because of a **lack of spiritual connection** with higher-vibrating, spiritual energies. Anyone, alien or human, who doesn't have a daily spiritual practice that enables them to connect to these higher energies is vulnerable to the Satanic influences. let's all be aware!
3. All three groups are themselves the **victims** of their own **genetics** and **environment**. They have never been exposed to the values of compassion, tolerance, unconditional love, etc., in their families of origin. As a result they are very uncomfortable in the presence of peaceful, loving energies and their lives revolve around acquiring material things, competing with others, and satisfying their ego-driven desires. Surrounded by money and power they may not appear to be victims, but they are! I believe that their inability to live in the **light** and experience **love** requires our compassion.

Let's now speculate or make some educated guesses about the perpetrators' individual motives:

- The **wheeler-dealers** support the NWO conspiracy and do what they do because it allows them to continue to be part of an elite ruling class which possesses all the wealth and power they could ever want. The NWO's success will enable them to continue to scheme and play with peoples' lives, make even greater amounts of money, participate in Satanic rituals, act out dark fantasies, and generally live without conscience or compassion. They believe they can do all this without fear of retribution because they are "protected" by the Satanic energies that surround the NWO conspiracy. Their role models are the hybrid families. Their only way out is if they discover what it's like to be human!
- the **hybrid families** are the architects of the NWO conspiracy and do what they do because they are arrogant enough to believe that their "superior" genetics will provide them with the cleverness and cunning to pull it off! Fueled by Satanic rituals, symbols, and energy, they are telepathically controlled by their reptilian masters and feel they are not subject to the restraints placed on us mere humans by our own laws and moral codes. Since they believe that humans are like cattle to be manipulated and controlled, they can justify any plan for us that requires acts of cruelty and degradation (like the NWO) and be more than willing to carry them out. Their only long term way out is to inter marry outside their bloodlines.
- the **Reptilian alien controllers** are the true source of this conspiracy and do what they do because they have no other choices about how to live. They have telepathy, advanced technology, cunning, and a killer's instinct but they are trapped within the limits of their genetics and spiritual understandings. While their actions are truly evil by our standards (not theirs) and must be resisted, directing feelings of hate toward them only feeds their present limited understanding and way of living. They are simply doing what their Reptilian species has been "programmed" to do. May they discover a new path!

Note: About the Reptilian Connection:

The most controversial part of the NWO conspiracy and the one most people find the hardest to accept is the Reptilian alien connection. I totally understand how this can be extremely difficult to assimilate! Please know that if you remove the Reptilians from the equation and consider the **conspiratorial families** or **illuminati** as the true creators and controllers of the conspiracy, the NWO conspiracy still "works" and still poses a real and present danger that should not be dismissed!

Section 4 How Can a Small Group Expect to Control 7 billion of Us?

1. By gradually gaining control of the world's wealth and resources:

Until there is a major shift in the way humans operate, money will continue to determine who controls what. Over time the NWO **conspirator families** and the **wheeler-dealers** have become the wealthiest people on Earth. They directly or indirectly control all the major international banks and financial agencies, the transnational corporations, and most of the key industries in all areas of human life. With unlimited amounts of money, which they can replenish by **printing more**, they have the ability to **bribe, buy out, or have killed**, anyone or anything that poses a major threat to their plans. By controlling the decision-making and wheeling-dealing that takes place in the areas of finance, politics, healthcare, the media, agriculture, education, etc., they have developed a stranglehold on all human activities and resources on Earth.

2. By gradually weakening the moral integrity and independent spirit of human beings in order to eliminate any resistance to the NWO conspiracy.

The two greatest obstacles the NWO conspiracy faces are 1. our **massive population** and 2. our **moral integrity** and **independent spirit**. No autonomous human being would willingly accept the evil living conditions imposed by the New World Order, and the perpetrators know this! For several centuries now they have been **socially engineering** the way we think, feel, and act. They took control of the **education system** and turned it into a vehicle for creating compliant consumers who unquestionably obey authority. They have encouraged the destruction of the **family unit** as the place where we learn our moral values. They engineer **artificial divisions** based on gender, race, and politics. They have covertly promoted **drug use, promiscuous sex, and violence** to create a more desensitized, immoral society. Through their control of the agribusiness and pharmaceutical industries they are weakening our whole being and destroying our collective will to resist. Their prime fear is our harmony and unity, their prime strategy is to "divide and conquer".

3. By engineering wars, "natural disasters" and "terrorist events" to create fear and uncertainty and then exploiting the climate of fear to move the NWO agenda forward: *Problem .. Reaction ...Solution*

Here's a recent example. The NWO perpetrators wanted to weaken the independent and freedom-loving nature of American citizens (who would naturally resist the NWO agenda) while simultaneously grabbing control of some of the Middle East's oil resources. Through bribery, deception, and cunning they arrange for a "terrorist" attack on the Trade Towers in New York City (**problem**). Thousands die, Iraqi terrorists are blamed, and American citizens are outraged (**reaction**). The Patriot Act is passed which limits basic rights and freedoms as the price for being able to "get" those bad terrorists (**internal solution**), and George Bush (a member of the elitist Bush family) declares war on Iraq (**external solution**). Soon NWO interests control Iraq's oil and have a stepping stone for controlling the whole region. It takes cunning, a well-organized network, lots of money, and a complete lack of compassion and morality to execute a sick plan like that. The NWO conspirators continued to create these problem .. reaction .. solution scenarios around the world.

4. By Controlling the Secret Services, Armed Forces and Police to Suppress Any Resistance

It's the physical presence of the police and army on the streets that controls the masses of people. This is especially true if those masses have been engineered to be fearful, divided, and weak ..see # 2 above. It has been relatively easy for the NWO conspirators to gain control of the police and armies because of their hierarchical structures. Using the "terrorist threat" as an excuse, the police are now being **militarized** and the army prepared for "**civil unrest**". Police and soldiers are now being brainwashed into believing that it's alright to deny us our human rights in order to "save us" from terrorists.

5. By Reducing our Massive Population to a Size that's More Manageable and Easier to Control

Our population is now being "culled" through **NWO engineered** droughts, famine, natural disasters, wars, terrorists attacks, depleted food, poisoned water supplies, chem trails, epidemics, drug use, street crime, and more. Anything the NWO conspirators control that can effect our collective health **is now being used against us** to reduce our population!

Section 5 When is this conspiracy going to take place?

<> The NWO conspirators has been **actively preparing** for hundreds of years, perhaps longer. They possess a very long-range perspective and are nothing if not patient! They believe in **doing things gradually**, almost unnoticeably, until an item on their agenda becomes a daily reality without us having seen it coming. The last two centuries has seen an increase in the number and intensity of their conspiratorial actions. see Section 4.

<> Based on recent events and the shift from covert to more blatant actions, it seems the **endgame is near**. My guess is the final attempt to seize power worldwide will occur within the next **five years**. I believe they now have to **move quickly** because their plans and actions are **no longer hidden** from the world. There are now hundreds of websites describing the conspiracy and thousands of people doing research on all aspects of the NWO. The names of many of the individuals and secret societies behind the conspiracy are being revealed, NWO past actions and current plans are being openly discussed, and a growing number of people are now prepared to actively resist this threat to our human health and freedoms. So from the perpetrators perspective, it may need to be now or never!

<> Please remember that we are dealing with conspirators who are methodical, have a very long-range perspective, and are very patient. They **will not act** unless they are convinced that all the elements needed for their eventual success are in place. If we quickly begin to resist them in large numbers, they will go back into hiding and await a more suitable time. Therefore it is **our collective actions**, or lack of them, that may determine the **final NWO timetable**.

Section 6 Where is the Conspiracy Going to Take Place?

<> Every major population center in the world is now under some form of NWO influence and partial control. Therefore the short answer is that the NWO conspiracy is **already taking place** in **every major population center on earth**.

<> The trigger events that may foreshadow the final implementation of the NWO agenda will probably take place in the **Middle East** in the next five years. This may involve nuclear weapons and an engineered Third World War.

<> After the NWO conspirators creates the *problem* and the world *reacts*, the *solution* will take the form of a proposed one world government led by a powerful, new leader. Much of this may involve the United Nations at its **New York** location.

<> The conspiracy will not succeed unless certain nations are brought to their knees i.e. those that possess an **independent national spirit** and the financial, technological, and military **resources** to resist the NWO conspiracy. This would imply that countries like the **United States, Great Britain, Germany, France, China, and Japan** will be **high-risk locations** where a number of NWO engineered events will be taking place. Note: they have already started!

<> Those living in these high-risk countries can expect an increase in NWO engineered "natural disasters" such as hurricanes, tornados, floods, and earthquakes. Weather-manipulation technology now exists and has already been used. They can also expect to experience some form of NWO engineered "terrorist" events that may take many lives.

<> The safest location during these critical times is in **remote rural locations** far from the major urban population centres. Hopefully those who live there will form **intentional communities** that are self sufficient in their food and energy needs.

Notes: About Timing and Locations

Predicting the details of **any** event is fraught with peril! The NWO conspiracy is based on secrecy, misdirection, and many unknown factors. The only thing I can say with certainty through direct observation is that the conspiracy has **already begun** to play out and that everyone, **whatever their location**, will be negatively effected if it succeeds.

Section 7 What Can We Do to Stop the NWO Threat?

Step 1. Let's Get Our Own Houses in Order by Doing Our Personal Growth Work

This is always the right starting point in dealing with **any** challenge or threat. The personal growth process is about increased awareness leading to better choices. It is these qualities that make us **authentic** and **autonomous** human beings who are capable of resisting any attempts to enslave us. By "coincidence" two of the key NWO strategies are to **decrease our awareness** and **limit our choices**; so there is a battle taking place to decide who controls our hearts and minds. Our individual and collective degree of "controllability" will determine the success or failure of the NWO conspiracy. The personal growth process requires 1. spiritual connection, 2. Big Picture understanding, 3. self awareness, 4. clear vision, 5. right work, 6. 21st century life skills, and 7. conscious social and political actions. I'm writing a new article describing these seven elements which will soon be available in the [articles library](#) of my website.

Step 2. Let's Build Networks, Get Political, Re-engineer Our Society, and Avoid Divisions Among Us

Our NWO conspirators, although relatively small in number, have been able to accomplish an enormous amount by being highly organized and employing certain **key strategies**. Although some of these strategies are morally unacceptable to us, we can model several of their approaches. The first is to **work through networks** rather than rely on heroic individual actions. Their networks are highly secretive, ours can be much more open yet still use discretion when we communicate and disseminate information. The second is to **influence politicians** and **political structures**. Let's communicate with and if necessary hound our political representatives when new laws and regulations are proposed that have the potential to enslave us. Let's run for political office, form political parties, march peacefully in the streets, and generally let politicians and enforcement agencies (secret services, police and army) know that they are being observed. The third strategy is to **re-engineer** those aspects of our society that the NWO conspirators have corrupted. It starts with money! Let's **disconnect** from our association with **banks** and **paper money** and learn more about the enormous scams associated with "debt" and "interest". Let's begin to trade services for services and goods for goods i.e. use **barter** and **mutual credit systems** like the CES. Let's encourage and support **family life**. Let's **boycott television** and the **sex-violence "entertainment" industry**. Let's create **alternatives** to the mainstream media so they are not our only source of information. Above all, let's be part of a process that **heals the divisions** between the genders, races, political parties, and nations so that many "thems" become one united "us". Remember that the NWO's strategy is to promote conflict that divides us. If we fight with each other we will lose sight of the NWO threat and allow it to slip in through the back door.

Step 3. Let's Use Non-Compliance and Others Non Violent Strategies in Our Resistance

Starting from today let's not comply with any law or regulation, be it political, financial, or social in nature, that restricts our rights and freedoms as human beings. Let's question the true nature of any law or regulation, new or existing, that is imposed on us and find out **whose interest it really serves**. If it only serves the international banking cartel or a "bought" government, then **we will not comply!** There is a conspiracy to enslave us and it is using the gradual, low profile introduction of repressive laws and regulations to accomplish this. Let's make sure our non-compliance is **not done alone** as it makes us easier targets to be silenced! Let's organize with other people and let the community and world know what we're doing through the Internet and local non-mainstream media. If the police or army use violence against us, let's march in numbers and let them know non-violently that a. their actions are unacceptable and b. we still consider them part of "us", albeit a badly behaving part.

Step 4. Let's Inform and Educate Each Other

There are millions, perhaps billions, of our fellow human beings who are experiencing fear, uncertainty, and a sense that something's not right in the world. Let's reach out and inform our brothers and sisters that much of our collective suffering is **not** the result of some vengeful God or an unfair universe, but is being engineered by groups with a controlling agenda. Articles like this one are one approach. Let's also use **community circles**, the **Internet**, **public talks**, and **face-to-face discussions** to inform and educate each other. As in all things we do, let's act with awareness, good choices, and love.

Section 8 Some Research Themes You May Want to Investigate

***Follow the money:* who owns or controls what in the world?**

research the centralization of wealth and political power in the world in the last 100 years. who controls the banks? who prints the money? who owns-controls the media? who controls the military-industrial complex? who owns-controls agribusiness? who owns-controls the pharmaceutical companies? and most importantly ... who controls our politicians?

***The Shadow Government:* who is making the decisions?**

research how many of the world's critical political, financial, and military decisions are being made. are critical meetings open to public scrutiny? who are the members of the elite decision making organizations? who in turn controls them?

***One World Government:* who is really governing us?**

research what sovereign rights autonomous nations are now relinquishing to international agencies and regulatory bodies? why a European Union?, why a North American Union?. who benefits when individual nations cease to control their own laws, cultures, finances, and resources?

***The Alien Presence:* what evidence is there for an alien influence or presence on Earth?**

research if there is historical evidence that suggest aliens have visited us in the past, are visiting us now, have lived here in the past, are living here now?

***20th and 21st Century Social Engineering Trends:* what has occurred in the last 100 years?**

research some of the financial, political, and social trends of the last 100 years and how they have effected our individual human values and social mores? what is the current state of the family? what was it like 50 years ago? what effects have the money supply, interest rates, and levels of debt had on the poor, middle class, and the wealthy? what effects has the feminist movement had on children and family life? how have our attitudes towards sex and marriage changed? how has the entertainment industry changed? how has the media industry changed? how has healthcare changed? how has agriculture changed?

***Problem .. Reaction .. Solution:* what role has this strategy played in the last 100 years?**

research how human history been effected by this strategy? has this strategy been used to create wars and conflicts among nations? has it been used to influence financial and commercial outcomes? has it been used to create divisions among the genders, races, and political parties?

I hope your research gives you a greater understanding of what's really going on in the world today. If you're now more convinced that the NWO conspiracy I've outlined is real, destructive, and needs our immediate response, please consider **doing something about it**. see [Section 7](#).

Please contact me if you're serious about organizing a group response to the NWO conspiracy and need some organizational help or advice.
